

This Garment is Leather.

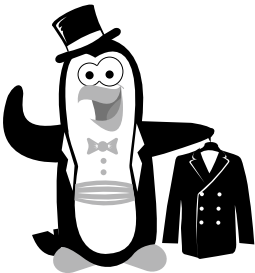

Disclaimer: In an effort to provide you with the best service possible, we need you to know about the risk involved in the leather cleaning process. We send out our leather to be cleaned by professionals who only clean leather. The process is longer and more expensive, and can damage your garment, even when done by a professional. Because we are not doing it ourselves, we do not assume responsibility for your leather garment. By signing below, you acknowledge this risk and do not hold Valet Dry Cleaning To Your Door responsible for any damage caused.

The process can take a couple of weeks, but we strive to return your garments to you as soon as we can. Please sign the form below and include it with your garment in your blue bag.
